Poster presentations from academic partners 2017

The following students are currently involved with some of our academic partners. They entered poster presentations about their HPCC Systems related project on Community Day at the HPCC Systems Engineering Summit in 2017. Find out about the posters submitted by HPCC Systems interns of 2017 and view abstracts for all submissions. See the full list of poster entries.

- **HaaS - HPCC Systems as a Service**
  Chin-Jung Hsu  
  Ph.D. Student  
  North Carolina State University

- **Malware detection using frequency based graph mining**
  Nusrat Asrafi  
  PhD Student  
  Kennesaw State University

- **Is the secret to longevity eating chocolate?**
  Cerise Walker  
  Undergraduate  
  Wayne State University

- **Fast retrieval of relevant information through HPCC Systems**
  Zhe Yu  
  PhD Student  
  North Carolina State University

- **Implementing a sentiment-change-driven event discovery system on HPCC Systems**
  Lili Zhang  
  PhD Student  
  Kennesaw State University

- **Representativeness of latent dirichlet allocation topics estimated from data samples with application to common crawl**
  Yuheng Du  
  PhD Student  
  Clemson University
