

Implement reference dafilesrv in other languages

The proposal period for 2022 internships is now closed
The proposal period for 2023 internships will open in November 2022

Student work experience opportunities also exist for students who want to suggest their own project idea. Project suggestions must be relevant to HPCC Systems and of benefit to our open source community.

Find out about the [HPCC Systems Summer Internship Program](#).

Project Description

More details coming soon.

If you are interested in this project, please contact [Jake Smith](#).

Completion of this project involves:

- <4+ high level tasks to be completed>

By the mid term review we would expect you to have:

- <What must be completed to pass the evaluation and continue on to complete the project>

Mentor	<p>Jake Smith Contact Details</p> <p>Backup Mentor: TBD Contact Details</p>
Skills needed	<ul style="list-style-type: none">• <See below some ideas add ones appropriate to the project.>• Ability to build and test the HPCC system (guidance will be provided).• Ability to write test code. Knowledge of ECL is not a requirement since it should be possible to re-use existing code with minimal changes for this purpose. Links are provided below to our ECL training documentation and online courses should you wish to become familiar with the ECL language.
Deliverables	<p>Midterm</p> <ul style="list-style-type: none">• <Deliverable(s) to be achieved> <p>End of project</p> <ul style="list-style-type: none">• <Deliverables expected by the end of the internship>
Other resources	<ul style="list-style-type: none">• HPCC Systems website• JIRA issue for this project: https://track.hpccsystems.com/browse/HPCC-18542• Blog: <Where relevant or other online resource>• Existing examples: <github links etc>• Learning ECL documentation and on-line training courses.
