Previously completed student projects

We ask students to submit either a presentation or YouTube video on completion of the program. This allows us to showcase the achievements of students during and after the student program. It also gives students something to look back and show to contemporaries, professors and potential employers.

*We are very proud of the achievements of all our students! Congratulations and we thank them for the contribution they have made to the HPCC Systems Open Source Project since 2015.*

Find out more about the HPCC Systems Summer Intern Program.

Our students may take the opportunity to present at one of our upcoming Tech Talks and may feature in our blog as their projects progress. US based students are eligible to enter our Technical Poster Presentation Contest during Community Day at our annual summit, giving all who attend the chance to meet students in person and find out more about their achievements.

Learn about the projects completed by the students who have joined the HPCC Systems intern program:

- Class of 2022
- Class of 2021
- Class of 2020
- Class of 2019
- Class of 2018
- Class of 2017
- Class of 2016
- Class of 2015 including our involvement with Google Summer of Code
